MEDIA RELEASE

CONSTRUCTIVE MEETING BETWEEN LPC AND WORKSAFE NZ

Lyttelton Port of Christchurch (LPC) and WorkSafe New Zealand met today (2 September) to discuss health and safety at Lyttelton Port.

“The meeting was very constructive and we are committed to working closely with WorkSafe New Zealand on all areas of health and safety at the Port,” said LPC Chief Executive Peter Davie.

“We share a common goal of having all those involved in work at the Port coming together to agree and ensure safety for everyone here.

“LPC continues to cooperate fully with the ongoing investigation into the circumstances surrounding the tragic accident in which LPC Mechanic Brad Fletcher was killed last week.

“Our thoughts are with Brad’s family, friends and workmates at this terribly sad time.”
