SECTION ONE

To comply with Safety and Security regulations, access to operational areas of the Lyttelton Port Company is controlled by automated gates at the major access points.

To streamline access for personnel with frequent or high priority access requirements, we have a proximity card system in place which is issued after a health and safety induction is completed. **Inductions are now online on the Lyttelton Port Company's website at**

www.lpc.co.nz/lpc/inductions/. Holders of proximity cards will only need to place them close to a card reader to open the automated gates. Those without proximity cards must identify themselves to the satisfaction of the Security Control Centre before access will be granted. The left hand lane at Gladstone Quay is dedicated as an enquiry lane. Push to talk intercoms is also provided at each gate for enquiries.
