CUSTOMER NOTICE

LYTTELTON CONTAINER TERMINAL VBS

As we lead in to the Easter/ANZAC short weeks we would like to give all users an update on R&D at LCT during this period.

At present we have plenty of spare capacity from Friday through to Monday and we encourage those trucking companies who are operating over this time to use this capacity as much as possible.

As expected Tuesday looks busy but at present there are still time slots available early morning and in to the evening. We are increasing Tuesday's capacity as much as we can and more time slots will be released later today.

Wednesday and Thursday time slots are also released today and we will maximise the number that we can offer during these days. The terminal will operate as normal on Thursday and this should present a good opportunity to catch up for those who are unable to secure all they need earlier in the week.

As a friendly reminder, please make sure you use all of the slots that you book – any no-shows will waste the extra capacity being provided and affects all users of the terminal. Please also remember that trucks arriving early must not wait in the top 10 lanes – they must wait along the back road until their time zone opens.

City Depot is also open for periods over the long weekend which will assist in picking up and dropping off empty containers as required.

Please feel free to contact us if you have any queries on email: vbs@lpc.co.nz
