## **Community Update**

### **Noise Issues from Container Terminal at LPC**

Over the last 24 hours LPC has received noise complaints in relation to operations of vessels berthed on Cashin Quay at LPC.

We are working to identify the vessel involved, and we are working with the shipping lines involved to look closely at the orientation of the vessels and the time window in which they operate at LPC.

We apologise for the inconvenience caused by this operation and will keep you updated as our investigation continues.

LPC is committed to being a good neighbour, and we continue to work hard to identify the issue and implement a solution.
