

Customer Notice – LPC Weather Update

Friday 28 May 2021 @ 1600hrs

Met Service have just issued a severe weather warning for most parts of Canterbury.

We are expecting the weather front to impact our terminal from late Saturday afternoon. Based on the current weather forecast (with high swells and wind), our Marine team are expecting to remove all vessels from the berth from late Saturday and we are not expecting vessels to be brought back into Port until the weather eases which is estimated to be 0700 hrs Monday 31 May 2021.

Our marine team will be actively monitoring the situation over the weekend and where possible we will look to minimize delays, but our priority remains on the safe operation of our terminal for our staff and our customers. Based on the latest forecast we have received; we expect up to a 24 hour delay for vessels over the weekend.

Please also be advised that high winds are also forecasted on Sunday, so this also has the potential to impact our R&D over the weekend but we will continue to keep you updated over the weekend.

If you have any questions, please do not hesitate to contact us.

Regards,

LPC Customer Service
