

Sustainability Resources for LPC Suppliers

Tools / resources		
Name	Description	Link
Climate Action Toolbox	A free online tool produced by business.govt.nz which enables small companies to calculate their carbon footprint over a 12-month period and build an action plan to identify areas where improvements could be made. The site is very user-friendly and a great first step for SME businesses to assess their environmental impact and act on making reductions.	https://www.tools.business.govt.nz/climate/?utm_source=sbn&utm_medium=website&utm_campaign=climateaction
Sustainable Business Network	A network for businesses to connect, providing a range of useful learning resources including webinars and training courses for: <ul style="list-style-type: none"> - Measuring and minimising waste and carbon emissions - Sustainability certifications - Sustainable procurement 	https://sustainable.org.nz/
Consultancies		
Name	Description	Link
